

PA Beef Expo

Simmental Sale

Friday, March 27th, 2009 @ 2:00pm

**PA Livestock Evaluation Center
Pennsylvania Furnace, PA**

Selling...

- * Cow/calf pairs**
- * Open heifers**

- * Bred females**
- * E T lots**

Welcome fellow breeders...

to the 2009 Pennsylvania Beef Expo Simmental Sale. This year's sale promises to be consistent to the quality and high standards of this well established sale. Each year we are seeing an increase in the demand for Simmental genetics and are proud to be able to put together such an outstanding set of Simmentals from some of the leading breeders in the East. As you look through the list of consigners, you will see that we have some of the top breeders in the country consigning some of their top genetics.

The consignors have brought you top notch open heifers with leading pedigrees and unmatched potential as show heifers and future brood cows or donors. The cow/calf pairs and bred females that will calve to the breed's most popular and proven sires are the 'front pasture' kind. The ETs in this sale represent some of the top genetic in the country.

Be sure to check out the outstanding set of Simmental bulls selling Friday morning during the 09 PA Bull Test Sale.

Please feel free to contact us or any of the consignors with any questions. We look forward to seeing you sale day.

*Thanks,
Chris and Kellee Brown*

— Information —

2009 PA Beef Expo Simmental Sale Approximately 2:00 pm, Friday March 27th following the Bull Test Sale PA Livestock Evaluation Center in Pennsylvania Furnace, PA

Sale Day Phones:

502-727-6898 Dalton Lundy cell

	TRIPLEC SWEET AS U J020C			SS ANNA KATE HH1			

Selling three embryos, guaranteeing one pregnancy if work is done by a certified embryologist. Here is your opportunity to get some of the first genetics from this Lazy H donor. Kate is deep, full of muscle and is phenotypically fault free. She produced Lazy H Last Chance S20, who was named Senior Champion at the 2008 National Western Stock Show. Kate's pedigree is a total outcross to most of the popular genetics today. Don't miss your chance to get in on this exciting female.

Selling three embryos from Foxy X Sandeen SOS. She came to us last year after topping the sale at PA beef expo, where she was the talk of the barn. She had a very successful show career for Rachel Linder including becoming the 2004 Ohio Best Champion Percentage Female, the Ohio Junior Percentage Grand Champion female, and the OJSA Percentage Champion Female. SOS is a halfblood SimAngus who is siring tremendous quality! Some highlights include the \$20,000 high selling lot at the 2007 Foundation Female Sale, a 3/4 sister who brought \$15,000, and the phenomenal 2007 Denver Low Percentage Champion Female. Heifer pregnancy at 2008 Northwestern brought \$6,000.

	HEARTHSTONE OSAGE S690				LADY SARGE K144		
	HPF MS COVERGIRL N030				HF/GFI RUBY RED 33E		

Choice of the two matings with the option to either take 3 or 5 eggs. It is with great pleasure that we at Sargeant Farms are able to consign to the PA Beef Expo. We are going to offer a choice lot of embryos out of our Lady Sarge K144 (2079413) donor. The K144 cow is a BS Mr. Arapahoe 811A x Ruby Red 33E; this would make her a flush sib to the J34 cow. As most know, the J34 cow is the donor dam of Remington Red label and the Winchester bulls that sold a few years back in Denver. The K144 is a solid black female that is a female that produces good cattle no matter how she is mated. K144 is a very complete, powerful female that has a lot of rib and muscle expression. If you are looking for a very strong cow family this is one that you need to consider very strongly. We are going to offer choice of CNS Dream On (2144976) embryos or Hearthstone Osage (2385121). If you choose the CNS Dream On eggs the resulting calves will be full sibs in blood to Remington and Winchester. If you decide to take the Osage eggs, you will be getting in on the ground floor of some great genetics. We thought enough of the Osage bull that we leased him from SVJ and D and D cattle to walk the pastures in Minnesota this spring. If the buyer takes three (3) eggs we will guarantee one (1) pregnancy, if they should decide to take five (5) eggs we will guarantee two (2) pregnancies. It is the responsibility of the buyer to cover all expenses involved with shipping of eggs.

Unforgettable Lady is a daughter of the \$61,500 Unforgettable 9A out of SAC Mr. MT. Good females like this are hard to come by and that is why it is with mixed emotion that we offer her for sale. Lady was very successful for Becky in the show ring and even more successful in production. She has averaged over 15 number 1 embryos per flush in her lifetime. Both her and her daughters are extremely easy keeping and excellent mothers. We are selling her with her January heifer calf at side out of our herd sire HBHF Casanova. Lady is open, ready to flush, and ready to make an impact on your program.

Grand Champion at York fair 08, she won Res. Champion in 08, and was second in her class at the 09 Pa Farm Show. She was shown by 12 yr old Blake Stough. This is a quiet heifer that would make a great cow for your herd. This heifer comes from Bill Shoemaker whose heifers win shows and then go out to pasture to make great cows in anyone's herd. This heifer is pasture bred to Cooks Full Bore 10R. You will not want to pass this one by.

PVSM Charmed is a black and polled, moderate framed heifer with plenty of thickness and depth of body. She has a great disposition and is very easy keeping, which is important with the high feed prices of today. Her pedigree traces back to the great Black Mindy cow on her dam's side, and Lucky Buck and 600U on her sire's side. Since PVSM Charmed has no Dream On in her pedigree, the breeding choices for her are numerous.

Full sibling to the 2007 PA Bull Test Top indexing Simmental Bull, which sold at the LEC for \$3400. This is an extremely docile calf, which would make a great show heifer for a younger showman. She has already been shown with her mother as a pair and on her own at the PA Farm Show. She has grown well, been easy fleshing and is strong on her feet and legs. Coming from Dream On and Powerline sets her up for great production and performance. She represents a Messick cow family in which both her dam and her dam's twin were shown all around PA. She is qualified to be shown at the Beef Expo Junior Show on March 28 if the buyer wants to show her there. "Cupcake" sells open and ready to breed.

She is out of LLL Cow, going back to Black Shamrock and Black Irish Kansas. Take this August calf home and breed her to the bull of your choice.

NOTES

ASA SUGGESTED SALE TERMS AND CONDITIONS

BIDDING AND APPLICABLE LAW: All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, expressed or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale block or as prohibited by law in the state wherein the sale is being conducted.

ANNOUNCEMENTS: Any change of information other than in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty) must be documented by seller if requested by the buyer at time of sale.

TERMS: Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected.

PURCHASER'S RISK: Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty-four (24) hours after the sale, whichever occurs first.

HEALTH REQUIREMENTS:

1. All cattle entered for sale must meet the health regulations of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and seller and should be documented in writing.
2. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

CERTIFICATE OF REGISTRY: Each animal which is catalogued, offered and sold as a registered animal shall have a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for", the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

IDENTIFICATION: Each animal at time of sale must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

AUTHENTICITY OF PEDIGREE: When an animal, through parental validation, is determined to have an ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller's expense. The animal in question, at the buyer's option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.

BREEDING GUARANTEES AND DEFINITIONS:

1. Females are guaranteed to be breeders, with the exception of:
 - a) Female calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Females used in ovum transplant after time of sale
 - e) Cows sold with calf at side or a female that calves after sale to a breeding prior to the date of sale
2. Bulls are guaranteed to be breeders (definition as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
 - a) Bull calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Bulls shown competitively after sale
3. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between buyer and seller.
4. Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian, and are pregnant at time of sale.
5. A bred female is a female known to have been served by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.
6. A pasture bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that this female is safe in calf to that bull.
7. An open heifer is a virgin heifer that has never been exposed to a bull either through natural service or artificial insemination.
8. An open cow is a cow that has not been exposed to a bull either through natural service or artificial insemination.
9. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

PRIVILEGE OF PURCHASER TO EXAMINE: The purchaser of a female animal may have her examined within twenty-four (24) hours after the fall of the hammer and prior to removal from sale premises. The pregnancy status of breeding status of an female so examined, when found not to be as represented at the time of sale, is cause for the female to be returned to

the seller as unsold.

EMBRYO TRANSFER:

1. Sellers should provide upon request a complete history of embryo transfer activity for any female offered for sale.
2. Withholding information on the existence of frozen embryos at the time of sale would be considered an unethical practice.

HORNED-SCURRED-POLLED:

DEFINITIONS:

1. **HORNED** — An animal with a horn growth affixed to the skull that has or has not been removed.
2. **POLLED/SCURRED** — An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.
3. **POLLED** — An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)
4. **SMOOTH POLLED** — A smooth-polled individual has no scurs and does not develop scurs later in life.

GUARANTEES:

1. If an animal is sold as polled or polled/scurred and proves to be horned, the seller shall be obligated to refund the purchase price upon return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value whichever is acceptable to the buyer. The buyer has thirty (30) days from date of sale to notify the seller that an adjustment is in order.
2. If an animal is sold as smooth-polled and proves to be scurred, the seller shall be obligated to refund the price upon return of the animal to the farm of the seller at the expense of the seller or at the buyer's option shall be exchanged for a smooth-polled animal of equal value.
3. If an animal is sold as polled and develops scurs, the seller will not be obligated to make any adjustment as a scurred animal is considered polled.
4. If an animal is sold as polled and has scurs, it shall be so announced at the time of sale that the animal has scurs. If it is not announced and the buyer finds before the animal leaves the sale premises that the animal has scurs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute.

1. All claims for adjustment or refund must be made in writing either six (6) months from the date of sale or no later than when the animal reaches 24 months of age whichever occurs later, with the exception of claims involving misrepresentation of service sire or as otherwise provided herein.
2. In the event an animal is claimed to be a nonbreeder, the animal may be returned to the farm of the seller, at the buyer's expense, if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of buyer, replace the animal with another equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement.
3. If a female is sold as "safe in calf" to a given sire or sires on a specified date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal and resulting progeny thereof to the farm of the seller at the seller's expense.
4. If a female is sold as "open" and proves to be with calf at time of sale and examined pregnant within sixty (60) days after sale, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

ETHICS: The Association considers it an unethical practice to offer for sale genetic material or an animal which is known to carry a deleterious genetic factor as defined by ASA without first informing the potential buyer or buyers of this fact. Any advertising, descriptive material or pedigree initiated by the owner of a proven carrier of a detrimental genetic factor as defined by ASA shall include a statement defining the deleterious factor or factors which the animal in question possesses. Any effort to conceal such information is considered to be equally unethical.

LIMITATIONS OF OBLIGATIONS:

1. If the aforementioned suggested terms and conditions are adopted, they should constitute a contract between the buyer and seller for each animal sold under these terms, as such, should be binding upon both parties. Animals resold following purchase in a sale shall constitute a separate transaction and the privileges and obligations of the original two parties connected thereto are not covered by the terms and conditions of sale.
2. The American Simmental Association, its directors or employees are not in any way responsible or liable for enforcing the suggested terms and conditions of any agreement involving transactions between buyers and sellers.
