

2013 Pennsylvania Beef Expo Simmental Sale

2:00 PM, Friday March 29 following the Bull Test Sale
PA Livestock Evaluation Center, Pennsylvania Furnace, PA

To the breeders:

Welcome to the 2013 PA Beef Expo Simmental Sale. With market prices remaining high it's a great time to cull older cows and find fresh cattle for your herd in this offering. This year we have more diversity and fresh genetics than ever in the sale selection. Whether you're looking for show potential or future front pasture brood cows, the open heifers offer powerful pedigrees and balanced, attractive phenotypes. The breds are young, fresh, and ready to bring in profits for your farm. The ET lots are top of the line genetics with proven backgrounds in the show ring and in sales. As always we have consistancy in the repeat consignors from PA and the surrounding states, along with some new faces joining us this year. Take a look at the offering and if you have any questions I encourage you to contact the breeders or Classic Sales. Sincerely, Chris Brown
