Sale Terms and Conditions:

All buyer numbers will only be issued with a valid ID and payment is due day of sale. DP Sales Management would appreciate timely settlement of receivables within 15 days of date of sale. Any person not complying with that guideline will be pursued legally. DP Sales accepts Visa/Mastercard. Cattle will not be transferred until paid for in full. Cattle will sell under Suggested Sale Terms and Conditions of the American Simmental Association For updated terms and details go to www.simmental.org.

Announcements:

Announcements made sale day from the auction block during the sale take precedence over printed material associated with this sale. Anyone attending this sale attends at his or her own risk, neither sale management nor Mountain View Farm assume liability for accidents or loss of property. DP Sales Management is only an agent for the seller and has no responsibilities other than those involved in conducting the sale. Mountain View Farm is BQA certified and certified Johnnes free herd.

Sexed Heifer Semen:

Sexed semen is not 100% accurate, therefore Gettysburg Stars & Stripes consignors can not guarantee gender of resulting calves.

EPDs:

Please note the EPDs may change from the time the sale catalog is printed until registration papers are transferred. EPDs listed are the new Spring 2015 numbers.

Directions to Sale Site:

From the North, South or West, take the I-81 exit for Route 30 East at Chambersburg toward Gettysburg. After crossing over South Mountain, look for road signs directing you to "Land of Little Horses" and "KOA Campground". These signs will alert you to the right hand turn from Route 30 onto Knoxlyn Road. After making the turn onto Knoxlyn Road, our farm lane entrance will be 1.4 miles on the right. Vehicles with trailers please take the second entrance and follow signs to the trailer parking area.

From the North, South or East, take Route 30 West from Route 15 thru the town of Gettysburg. Three miles on Route 30 West from the Gettysburg town square (traffic circle), you will make a left hand turn onto Knoxlyn Road. Road signs for "Land of Little Horses" and "KOA Campground" will alert you to the turn. After making the turn onto Knoxlyn Road, our farm lane entrance will be 1.4 miles on the right. Vehicles with trailers please take the second entrance and follow signs to the trailer parking area.

Lunch will be served sale day by Biggerstaff Catering!

Barbara and I wish a sincere welcome to friends and prospective buyers to the 8th Annual Gettysburg Stars and Stripes Sale. Once again members of the Gettysburg Stars and Stripes Sale Group, have brought in superior Simmental genetics for your consideration. While we have many long-term consignors returning to the sale, we also have some new breeders this year. Please note our regional representation.

As in previous years, sale cattle will be placed in fenced but open lots here on the farm prior to sale. They will be sorted by kind, relaxed and grazing so you can view them in their natural state from noon Friday until sale time. If you come out to the farm on Friday for a preview of the possibilities, the sale consignors and breeders will be available throughout the day on Friday May 1st and the morning of Saturday May 2nd to answer any questions you might have on their consignments. If you do arrive on Friday, feel free to drop your cattle trailer in the trailer parking lot at the farm before going back into town.

The actual sale will be held Saturday afternoon in our sale barn facility immediately adjacent to the open lots. A catered sale day lunch of BBQ Beef Brisket by Biggerstaff's Catering will be provided to you prior to the sale, courtesy of our partnering sponsors from local agri-business companies. Please see our partnering sponsor ads in the catalog and be sure to thank them for your meal.

For those of you who have not been to Gettysburg before, you will find attending this sale can be a great family mini-vacation with plenty of history, antiques and other attractions to keep you busy in addition to the cattle sale. Please look thru this catalog for a listing of additional activities. Come early – stay for the weekend.

For those of you who participate in the sale thru our arrangement with DV Auctions, we will miss your physical presence with us but certainly appreciate your interest and participation in the sale. Last year we sold cattle in sixteen U.S. states as far west as Oregon, as far south as Georgia and Tennessee and as far north as Ontario, Canada. DV auctions and the Internet help make all of that happen. We are fortunate to have an expert team of haulers under the leadership of Sam Harroun to move cattle quickly from the sale barn to new owners throughout North America.

We have arranged for a complimentary guided tour of the Gettysburg Battlefield on Friday afternoon leaving the sale barn at 1:00 pm. The tour will last about two and one-half hours. See full tour information elsewhere in this catalog. Please call ahead 717-337-1615 to reserve your space for the battlefield tour.

We are pleased to offer complimentary drinks and snacks on the patio at the house late Friday afternoon/early evening.

You will find in this catalog reserved motel information for your stay. We highly encourage you to call and make your reservations early as this sale occurs at the start of the very busy Gettysburg tourist season.

We look forward to seeing you here.

Sincerely,

Tom and Barbara Vossler
Mountain View Farm &
Stars and Stripes Sales Group

Welcome to Gettysburg!

It is that time of the year again to hook up the truck and trailer, pack up the family and head to Gettysburg, Pennsylvania. I know that I say this every year, but if you don't attend any sales this spring make plans to come to the Stars and Stripes. This year the sale offering is over the top with a strong offering matter of fact, this probably is the best ever and the largest numbers of ever at this event. The consignors of the Stars and Stripes roll out the hospitality of Simmental genetics, food, and fellowship to make in one to remember. Tom & Barbara Vossler always roll out the red carpet, and are the perfect hosts for this special event. As you will see in the upcoming news and in the catalog exciting events are happening in the Northeast so make sure you are part of the exciting times in the Simmental breed.

The Stars and Stripes Sale has a lot to offer. The numbers are strong this year, with a diverse offering. Since the sale is held in May the Stars and Stripes group are able to offer more bred cows and pairs. For the past several years these are always a sale highlight. Don't forget that this might be your last chance to purchase an open female for summer junior events such as the regionals and the junior national. I encourage you to study the catalog and visit with the Stars and Stripes breeders, they know their cattle and stand behind their product 100%. The breeders involved have had great success in the northeast exhibiting and marketing their genetics at various shows, sales, and events. This group is dedicated to raising good cattle, and helping their customers succeed with their purchases.

The Gettysburg area is the perfect backdrop in the spring to bring together Simmental genetics and the history of the United States. Plan to arrive early to take in everything that this area has to offer. Not to mention the award-winning Friday afternoon tour by Dr. Carol Reardon followed by drinks and appetizers on the porch overlooking the sale offering. We appreciate all that Tom & Barbara do to assist with the success of the sale each and every year. The Stars & Stars group works hard to make their sale a great experience.

DP Sales and the consignors will work hard to make sure everyone gets taken care of no matter if you are in Gettysburg, or bidding online through DV Auctions. Please feel free to call anyone involved with the sale concerning questions about the offering or arrangements. We look forward to seeing you in Gettysburg! Remember trucking is available to any where across this great country.

• Rebound is a flushmate sister to the Bombshell heifer also offered in the Stars & stripes. She offers a lot of power in a moderate package. You will admire the internal dimension and capacity that she exhibits to compliment her sound structure and feminine brood cow look. Of course she stems from the ever dependable WAR Diva cow family upon which we have built most of our cowherd. These cattle excel in both phenotype and genotype as has been proven over several years as they continue to be both champions and top sellers whenever they go. A member of this family, CLO American Honey 77A, sold in 2014 to Lane Heil of Ohio as one of the to lots of the Stars & Stripes sale. If your needs demand easy keeping, sound structured, docile, moderate, powerful feminine replacements females, rebound will suit your needs. Homozygous black and homozygous polled. OCV, BVD-PI negative.

• This stylish, sound structured female is aptly named for her impressive phenotype. Both sides of her pedigree have a long lineage of superior production. Her dam was successfully show by CLO Simmentals and later proved to be excellent produced and donor within that program. Her granddam is the highly respected WAR Diva cow show has accounted for numerous champions and top sellers across the nation. Oh the sire side we find Upgrade, the most heavily used purebred sire in recent times. Upgrade, a sire of quality offspring also brings a lot of value from EPD focus. The Upgrade daughters are highly regarded superior cows now that they are in production. Bombshell has already been show with her best days in her future. She has style and balance with quality to be noticed wherever she goes. She will make a sound investment as a future donor candidate. OCV, BVD-PI negative. Homozygous black and homozygous polled.

- Selling 5 embryos guaranteeing 2 pregnancies if work is performed by a certified embryologist. 2- 90 days pregnancies.
- Sheza Dandi T46 is a direct daughter of the immortal JBH Sheza Dandy, who is responsible for as many breed changing donors and popular AI sires as any female in the breed. Progeny have topped sales, won shows, and most importantly went on to produce and generate huge income for their owners. T46 has been no different, and has made her own mark on the breed. These embryos, sired by the Genex sire, Wide Track, will be maternal sibs to the crowd favorite Sheza Dandi 206B who was a high seller out of The Living Legacy X at \$26,000. Many said they have never seen a purebred Simmental with that long and skinny of a neck while still having the mass and power to go with it. We agree. Another T46 daughter was the high selling bred female at \$10,000 out of The Living Legacy IX. Take this opportunity to put your prefix on progeny out one of the breeds most popular cow families. Owned with CLO Simmentals. Embryos available for pickup sale day.

- From the moment we saw her walk in the ring and smoke the Senior Yearling Division at the 2008 North American, we were in love with this female. Although we weren't able to get her hands on her until a couple years later down the road, we were still just as smitten with her as the first time we saw her. 63s is as massive, powerful, and easy keeping of female as you could ever want. But what truly sets this female apart from the pack is how she does all that in a balanced, smooth made, attractive, and perfect structured package. With embryos in the tank and some of her first embryo transfer babies standing out in our 2015 calf crop down at Sanders, we decided to share the wealth. Seller is willing to throw in a package of three embryos out of 63S sired by the popular Knic Overpeck Supreme Champion at Simmental Sweepstakes, Two Step 20z, to help the new owner speed along the process of getting progeny on the ground out of this impressive beast.

• consignor: Stewart's Simmentals

• **26A and 515B** – Here is a pair of females that combine both phenotype and pedigree. This cow family is really starting to gain some momentum. One maternal brother was Reserve Grand Champion bull at the 2015 PA State Farm show as a calf. Another brother was the top indexing Simmental bull at the 2015 PA Bull Test, gaining 5.21 lbs per day (2nd among 135 bulls of all breeds). So there is both eye appeal and performance in this cow family. Cool Butt is super cool in her overall design. Being super neat and clean in her front one-third, tying into a tremendous amount of rib that has great shape. I'm confident that Cool Butt will end up going immediately into someone's donor pen. Shez Money is better than her picture. She is a super stout hipped female that has a lot of style and eye appeal. Only because we have their dam, are we able to part with these two tremendous young females. Very few females have been offered for sale out of this cow family, so take advantage of this opportunity. Cliff Orley saw a sister of theirs sired by Upgrade and said it was the best Upgrade daughter that he has seen. It wasn't long after that, he added her to his Donor battery. Get in on this cow family early because both Cool Butt and Shez Money will be sure to put money in your bank account and in your pocket.

- This September born baldie female is one that is easy to fall in love with. Extremely big bodied, flat necked, big topped, with a sweetheart disposition, 423B has nothing but bright days in front of her. We believe this female is stout enough to be competitive this summer as a calf, yet still has the freshness and longevity to come back next year as a Senior Yearling and over power the competition. We own her mother, 0011X, in partnership with Jones Show Cattle of OH and as we begin to get more of her ET calves on the ground, we get more and more excited. Take this opportunity to get in early on a cow family that will continue to increase in value.

• One of the first offered for sale from our favorite "Up and Coming" donor, HPF/Borne Knockout Y030, this little lady deserves serious consideration. B097 is square hipped, level topped, heavy muscled, and fat boned. She ties her power and stoutness all together very smoothly and is extremely long and attractive fronted. She may be a little younger and greener than others, but this female has done nothing but get better every day of her life and with the power and consistency of the "Knockout" family behind her, I wouldn't bet on that stopping anytime soon. • In 2014, MVS Maximus was listed by ASA as the 18th ranked of all registered Simmental bulls for yearling weight production. See the SimTalk edition of Late Fall 2014. Our three Spring 2014 Maximus sired heifers, and our 2013 fall-bred heifer, in this sale reflect that data analysis. All three are big capacity and fast growing with above average pelvic development for calving ease and plenty of milk for their calves. If you value your production on pounds and dollars per pound, these are type of females you need in your herd. Daddy, MVS Maximus, at eight years old, is still here on the farm and still producing great calves like these - longevity/stay-ability is important to your investment. Our MVS Maximus sired heifers and bulls have been sale leaders for good reason. This heifer, MVS Snow Princess (B2), is a great example of the growth factor for weaning and yearling weight. Given her age, Princess will not be bred until the weeks prior to the sale. Our choice for breeding sire on her next cycle is the popular Sim-Angus bull GW Premium Beef 021TS for a calf born in January 2016. Princess is halter broken since weaning. She is of calm disposition and respectful of her human handlers. Conceived, born and raised on this farm under BQA standards. Tested negative for BVD/PI. Yearling frame score of 6.0.

• Captain Empress is a long sided, deep solid black heifer that will add a lot of volume and dimension to our herd. She goes back to the Shoemaker's Sweetheart cow which has produced many quality animals. Not to mention she is out of the Champion bull at the KILE; Cliff Orley's Captian America. With being able to be bred in the next few months to the bull of your choice if you are looking for an animal to expedite your program her is the one for you.

Within a ten minute drive of Mountain View Farm is the Eisenhower Farm owned by former U.S. Army General and U.S. President Dwight D. Eisenhower. In addition to his many other activities, Ike maintained a national prize-winning herd of Angus cattle. Although Ike's herd is gone now, the house and barns are maintained as they were when the Eisenhower's lived there and are open to tours by the public.

• MVS Maximus daughter MVS Winter Star (B3), is very much like her pen / pasture mate Snow Princess (B2). See expanded footnote for Princess for more background details. Note that on the bottom side of her pedigree, Star is derived from the immortal C.S. Leachman 600U. Star's full sister was a sale leader in this sale last year. Also note the milk EPD of 30.0 - top 5%. Can you imagine the calf due January 2016 when we breed her prior to the sale to popular Sim-Angus bull GW Premium Beef? Winter Star is halter broken to lead since weaning. If you do not have a halter near by, simply call her name and she will follow you. Conceived, born and raised on this farm under BQA standards. Tested negative for BVD/PI. Yearling Frame Score of 6.5

• Given her name, we know where this heifer came from on the top side of her pedigree. See expanded footnote for Snow Princess (B2). On the bottom side of the pedigree she goes back to the Hudson Pines Herd. One of the many great HPF donor cows was her great-grand-dam. This heifer is a month younger than her pen mates and it is doubtful we will breed her prior to the sale as our goal is to have the heifers birth their first calf on their second birthday. In this case then, breeding would not occur until after the sale. Not to worry, we will have heat cycles recorded for you and you can breed to your choosing once you get her home. Moreover there is some show in this great-looking heifer and we will have her groomed accordingly. Like her pen mates she is halter broken since weaning. Conceived, born and raised on this farm under BQA standards. Tested negative for BVD/PI. Actual birth weight was 79 pounds from a first-time momma.

15	0.3	61	98	13	22	52	0.48	0.56	147

- Bedazzled 6B represents a new venture for CLO Simmentals, to explore the value of SimAngus. After observing the quality and acceptance of SimAngus progeny it was time to get involved. Half of Bedazzled's pedigree represents. Total outcross genetics which was a very positive results in 6B. One will observe a balanced sound structure profile with tremendous extension throughout her skeleton. Her long sweeping ribcage and depth in her lower 1/3 can be admired. All her pieces fit to make her a for real brood cow prospect. Upon looking at her genetic profile you will see that she excels in CE and low BW and post an API and 147.4. To add to this she traces back to one of the strongest cow families, 240J, at Wayward Hill Farm of Kentucky. Bedazzled is truly a female to build upon! Homozygous black and homozygous polled, OCV, BVD-PI Negative

- Aili bring forth the ever popular blaze face to the equation. To add to the you'll find a very long bodied, feminine female that will qualify as a top replacement in most any herd. This female is power packed with maternal traits when you examine the sires and dams represented in her extended pedigree. Simply put she is not just another heifer. Equally interesting she sells pregnant to MVS Maximus, a previous National Champion, owned by our sale hosts Tom & Barbara Vossler. Homozygous polled and heterozygous black. OCV, BVD-PI negative. Sells safe in calf to MVS Maximus since 1/11/15.
- Bred AI** to MVS Maximus, ASA# 2371205 on 1/11/15

• On one side of the EPD percentile table Rowan ranks in the top 3% for Calving Ease and she carries a low birth-weight EPD. On the other side of the percentile table she ranks in the top 20% for API and TI. A great-looking undiluted red heifer, we are letting Rowan go only because we still have her momma and a full sister in production in the herd. A full sister to Rowan was a sale topper in the 2013 Stars and Stripes Sale. A/I'd and safe in calf to TNT Gunner on first and only breeding for a red September calf. No exposure to other bulls. Halter broken since weaning - very calm and gentle. Bred and raised under BQA standards. Tested negative for BVD-PI.

• Here is an opportunity to purchase a bred daughter from our donor HPRP Lady Prime 054U who was purchased from the Hudson Pines Living Legacy V sale. AAS Tomorrow's Dream's dam has been described as a female with tremendous structure under all four corners, long sided with loads of internal dimension while staying complete and balanced in her type and kind. She was named Senior Calf Champion in Denver and then went on to be named NAILE Division VI Champion Heifer just six weeks after calving. She continues to work in our herd today. Tomorrow's Dream is a female with plenty of thickness, perfect udder and super cool front end. She's halter broke and easy to handle. Her mating to Navigator should produce a calf with a tremendous set of proven genetics. Take advantage of this opportunity to add the Lady Prime genetics to your breeding program. She is due to calve on October 26, 2015, therefore you won't have to wait long to see your return on investment.

- **Bred AI** to Navigator, ASA# 2202195 on 3/16/15
- **consignor:** Anvil Acres

- AAS Wicked Revenge was sired by GWS/SCF Rendition, out of our \$38,000 donor cow Wicked Sister that we co-owned with Owens Brothers Cattle Company. Wicked Sister has been said to be the closest replica of her dam, Drake Summer Sister, which produced Westfall Voyager and many other great cattle. Wicked Revenge has quite a set of cow families backing her with Rendition being a Trademark son and a dam lineage of Dream On x Drake Summer Sister. She has a super gentle disposition, is a moderate framed, structurally correct female with a nice set of EPDs, and was shown as a heifer by our son. We have added another genetic factor by breeding Wicked Revenge to Navigator for a late May calf. "WOW" what a genetic package that will give you a quick return on your investment! Take this opportunity to purchase a superior young cow with lasting genetics.

- U5105E is a direct daughter of the cornerstone donor for ClearWater Simmentals, Ebonys Joy 5105R. 5105R is of course a daughter of the most famous cow in the breed, Ebonys Joy L123. U5105E has produced just as you would expect from a member of this powerful family, most notably HPF Joy A054, who was Reserve Grand Female at the 2014 Illinois State Fair for my good buddy Marshall and all of Tarr Nation, along with the many other banners she claimed along the way. U5105E's star faced heifer calf at side has all the look and style to follow in her older sisters footsteps. I would be willing to bet that this fall, HPF Joy C055 will make mom seem like a pretty cheap investment!

- HPF Miss Queen U183 is a cow we will hate to see leave Sleepy Hollow. U183 is a big hippered, stout boned, well balanced daughter of the great BCS Queen of Hearts. Her heifer calf by our Queens Valentine R9 son, HeartBreaker, has all the look and style to be a big time show heifer and probably pay for the cow and then some. A cow that probably hasn't been utilized enough in our program, we are confident U183 has the ability to generate big income and should probably be considered for the donor pen.

- Selling 2 sets of 3 embryos guaranteeing 1 pregnancy on each mating if work is performed by a certified embryologist. Steel My Breath is one of our top donors we purchased through the Stars And Stripes sale.
- This blaze faced clean made Steel Force daughters dam is the undefeated SVF Breath Taker whose offspring have done great things. Steel My Breath is a sister to SS Babys Breath the prolific donor for Sanders Ranch who now resides at Hillbrands in Minnesota. She is the grandam of CVLS Full Throttle the new up and coming bull for Clover Valley Simmentals in Indiana. Her offspring have done well for us at the shows and sales. We could go on and on about the accomplishments of the Breath Taker family. We are offering two sets of embryos. The first by Sandeep Upper Class 2386 who looks to be the next great one. His offspring are topping sales all over the country and his semen is hard to get. The second set are by the popular Angus bull Silveiras Style who is a master at making deep bodied clean fronted cattle. Here is an opportunity to put top genetics into your program.

- Selling 3 embryos guaranteeing 1 pregnancy if work is performed by a certified embryologist.
- We have been very fortunate to have added some good genetics from some of the past Stars and Stripes sales so last year we decided to make the trip to Gettysburg. We not only had a great time we added a donor cow for the of price of \$6,100 not a huge investment. This Shear Force is a complete and well balanced cow plus has strong EPDs across the board. We feel no doubt this cow will benefit our program in a short time period. At the time we didn't ever know if she was a flush cow however viewing the individual and her stats, is a sure thing. We flushed her to our new young herd sire by Milestone out of the Georgia 546R donor. With a few on the ground. It looks like this is a no brainier. Again, I guess this is a testimonial, everything we have purchased out of the Stars & Stripes has benefited the Clover Valley program as well as others plus many made us money.

- Selling choice of 3 embryos guaranteeing 1 pregnancy if work is performed by a certified embryologist.
- As a young operation back in 2011, we wanted to own a War Diva daughter so that lead us to the Stars and Stripes. We did not attend however ended up with CLO War Diva, the outstanding In Dew Time female. A few years have been pasted and Diva Dew has matured into quite of a cow. In the 2014 joint production sale with KenCo the Family Matters sale we sold four daughters for a average of \$5,250 and embryos totaling \$6,300. This cow has pasted our expectations and is only getting started. She produces a complete animal with a nice look and Diva adds in that maternal ability. As many know and we can tell you also, this family always pays you back time and time again plus just think of all the genetic merit that has been added along the way for a ever growing breed. All these matings are proven pick anyone you desire for your operation.

Complimentary guided tour of the Gettysburg Battlefield on Friday, May 1st

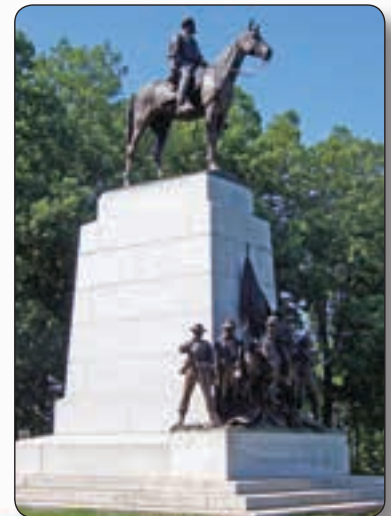

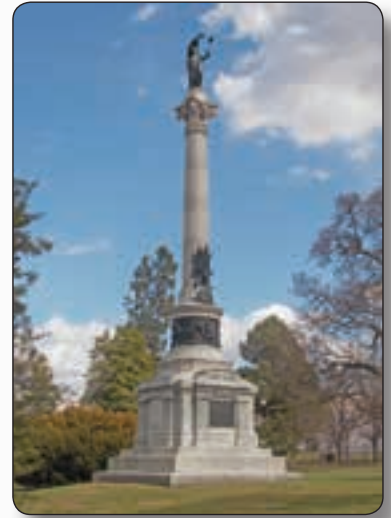

GETTYSBURG. A name widely known in U.S. and World history. In the third year of the American Civil War, 90,000 Northern soldiers, 70,000 Southern soldiers, 72,000 horses and mules, over 600 cannon, met in mortal combat in three days of battle. This was the largest battle ever conducted on the North American continent. The battle was conducted over 6,000 acres of approximately 38 separate farms surrounding the town of Gettysburg.

Mountain View Farm, host farm for the Gettysburg Stars and Stripes Sale, sits less than two miles from the battlefield. The Stars and Stripes Sales Group is pleased to offer a complimentary tour of the Gettysburg Battlefield as part of this year's sale.

Tour leaders again this year are Dr. Carol Reardon of Penn State University and sale host Colonel Tom Vossler. Carol is also co-owner of two of the producing dams in the Mountain View Farm herd. Carol and Tom are both military historians who specialize in history of the American Civil War. In 2013 their multiple award winning book on the Battle at Gettysburg entitled *A Field Guide to Gettysburg* was published by the University of North Carolina Press. The tour Tom and Carol will lead will include a lot of what is in their book. The tour will also include visits to the state memorials of Virginia, North Carolina, Maryland, Pennsylvania and New York.

To reserve your space(s) on this popular battlefield tour, call Tom or Barbara Vossler at 717-337-1615. If no answer to your call, leave a voice mail with your name and headcount for the tour. The tour will depart the sale barn on Friday, May 1st at 1:00 pm and will last about two and one-half hours giving you plenty of time to view the cattle prior to the social hour at the farm house at 5:30 pm.

ASA Sale Terms & Conditions ...

BIDDING AND APPLICABLE LAW: All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, expressed or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale block or as prohibited by law in the state wherein the sale is being conducted.

ANNOUNCEMENTS: Any change of information other than in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty) must be documented by seller if requested by the buyer at time of sale.

TERMS: Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected.

PURCHASER'S RISK: Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty-four (24) hours after the sale, whichever occurs first.

HEALTH REQUIREMENTS:

1. All cattle entered for sale must meet the health regulations of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and seller and should be documented in writing.

2. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

CERTIFICATE OF REGISTRY: Each animal which is catalogued, offered and sold as a registered animal shall have a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for", the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

IDENTIFICATION: Each animal at time of sale must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

AUTHENTICITY OF PEDIGREE: When an animal, through parental validation, is determined to have an ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller's expense. The animal in question, at the buyer's option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.

BREEDING GUARANTEES AND DEFINITIONS:

1. Females are guaranteed to be breeders, with the exception of:
 - a) Female calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Females used in ovum transplant after time of sale
 - e) Cows sold with calf at side or a female that calves after sale to a breeding prior to the date of sale
2. Bulls are guaranteed to be breeders (definition as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
 - a) Bull calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Bulls shown competitively after sale
3. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between buyer and seller.
4. Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian, and are pregnant at time of sale.
5. A bred female is a female known to have been served by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.
6. A pasture bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that this female is safe in calf to that bull.
7. An open female is a non-pregnant animal.
8. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

PRIVILEGE OF PURCHASER TO EXAMINE: The purchaser of a female animal may have her examined within twenty-four (24) hours after the fall of the hammer and prior to removal from sale premises. The pregnancy status of breeding status of an female so examined, when found not to be as represented at the time of sale, is cause for the female to be returned to the seller as unsold.

EMBRYO TRANSFER:

1. Sellers should provide upon request a complete history of embryo transfer activity for any female offered for sale.

2. Withholding information on the existence of frozen embryos at the time of sale would be considered an unethical practice.

HORNED-SCURRED-POLLED: DEFINITIONS:

1. **HORNED** — An animal with a horn growth affixed to the skull that has or has not been removed.
2. **POLLED/SCURRED** — An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.
3. **POLLED** — An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)
4. **SMOOTH POLLED** — A smooth-polled individual has no scurs and does not develop scurs later in life.

GUARANTEES:

1. If an animal is sold as polled or polled/scurred and proves to be horned, the seller shall be obligated to refund the purchase price upon return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value whichever is acceptable to the buyer. The buyer has thirty (30) days from date of sale to notify the seller that an adjustment is in order.
2. If an animal is sold as smooth-polled and proves to be scurred, the seller shall be obligated to refund the price upon return of the animal to the farm of the seller at the expense of the seller or at the buyer's option shall be exchanged for a smooth-polled animal of equal value.
3. If an animal is sold as polled and develops scurs, the seller will not be obligated to make any adjustment as a scurred animal is considered polled.
4. If an animal is sold as polled and has scurs, it shall be so announced at the time of sale that the animal has scurs. If it is not announced and the buyer finds before the animal leaves the sale premises that the animal has scurs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute.

1. All claims for adjustment or refund must be made in writing either six (6) months from the date of sale or no later than when the animal reaches 24 months of age whichever occurs later, with the exception of claims involving misrepresentation of service sire or as otherwise provided herein.
2. In the event an animal is claimed to be a nonbreeder, the animal may be returned to the farm of the seller, at the buyer's expense, if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of buyer, replace the animal with another equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement.
3. If a female is sold as "safe in calf" to a given sire or sires on a specified date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal and resulting progeny thereof to the farm of the seller at the seller's expense.
4. If a female is sold as "open" and proves to be with calf at time of sale and examined pregnant within sixty (60) days after sale, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

GENETIC TESTING AND TraitTrac STATUS: Sellers must identify the TraitTrac status and the results of any qualitative genetic testing performed on any animals or genetic material offered for sale. The ASA considers it an unethical practice to misrepresent or fail to disclose the TraitTrac status or qualitative genetic test results of any animal or genetic material.

DISCLOSURE OF MATERIAL INFORMATION: Sellers must disclose all material information concerning any animal or genetic material offered for sale. For the purposes of these Sale Terms and Conditions, "Material Information" is defined as any information which would be likely to affect the value of the animal or genetic material if the information were known to the public. Material Information includes, but is not limited to, information related to genetic tests, blood tests, ultrasound pregnancy results, disease tests, pregnancy and fertility test results, information related to the sex and age of in utero calves or embryos, and information related to the fertilization status of in utero calves, including whether the calf was conceived via artificial insemination or natural service. The ASA considers it an unethical practice to misrepresent or fail to disclose any Material Information concerning an animal or genetic material offered for sale.

LIMITATIONS OF OBLIGATIONS: These sale terms and conditions constitute a binding legal obligation between the buyer and seller of any animal or genetic material sold under these terms and conditions. However, the ASA, its directors, officers, employees and agents do not assume any obligation, legal or otherwise, to enforce the sale terms and conditions agreed to between buyer and seller.
