VIRGINIA CLUB CALF PRODUCERS

7TH ANNUAL EASTERN ELITE

JANUARY 27, 2018 | HARRISONBURG, VIRGINIA | 6:30 PM

following Heifer Show at the VCCP Winter Classic Jackpot Show.

We would like to welcome you to the 7th Annual VCCP Eastern Elite Sale, held in conjunction with the 13th Annual VCCP Winter Classic Show. As I write those numbers, it is hard to believe that this many years have come and gone since our first event. As this event continues each year, we are pleased to hear about and see success stories that have had their genesis out of this sale. There are more stories than we have room for below, but we have listed some of the recent and most successful stories below. Several folks have purchased lots for modest sums and really generated serious revenue from those purchases; the 2016 Champion Maintainer at NAILE ranks right at the top. We have a tremendous set of open heifers this year, that people in the audience should buy as many as they can – show the ones they want, and breed them all to the AI bull of your choice; in a year's time – you would be ready to calve out one heck of a set of bred heifers. There are four really nice herd sires in this year's offering, combined with a nice set of bred heifers and bred cows – two donors for their previous owners. As always, we have an elite set of genetic lots of embryos and semen – There is money to be made in all divisions of this sale, people do and tell us about it – thank you for your interest – please call any member of the sale committee with questions.

VCCP Sale Committee

1 { In our 2014 Sale – Bushy Park bought a pack of Irish Whiskey eggs out of the Mimms Donor 4267. They sold two resulting heifers for \$23,000 and \$100,000 last fall – This may be unprecedented in any sale in the country! Congratulations to Cory Thomsen and Crew at Bushy Park. The resulting heifer from this embryo pack went on to be named NAILE Grand Champion Maintainer Heifer in both the junior and open shows, congratulations Mason Walker.

2 { This Sim Solutions lot was consigned as a heifer pregnancy by Wehrman Genetics in the 2012 Eastern Elite sale and was purchased by G&B Cattle for \$3500. They returned her to the 2014 sale as a bred heifer and sold her for \$13500

3 { NB Livestock purchased eggs in the 2015 sale from Sharp Who Made Who Donor 367 x Monopoly. These eggs produced the high selling steer that year and one of the features at the 2016 VCCP Best of the Valley Sale.

4 { In 2015, Mill Creek Farm brought us MCF Red Robin, which was the top selling bred heifer that year. She has now paid for herself a couple times over now, and Yonts Farms now owns her in her entirety. Travis Yonts has brought us a featured heifer out of her this year, in lot 6.

Welcome

Success Stories

Great opportunity to one lucky winner!!!

We will be drawing a lucky winner at the end of the sale to win one new pelican cooler full of supplies.

Value will be in excess of \$500!!

The saying goes a picture is worth a thousand words! This May Angus heifer will bring the heat to a show ring anywhere. We are excited to see the future of this Revival daughter. Revival sired our lot 1 heifer in our online sale in 2016, and that heifer went on to be a good show heifer for Erica Snook. KCC Princess 4117 is a deep-bodied female with lots of foot and bone that adds plenty of power, while still having a great front end. She is halter broken and all vaccines are up to date.

This heifer is a must see and one to add to any type of program! KCC Clara 2917 keeps getting better everyday. She is long bodied and very extended through her front 1/3. This female will make a good show prospect and an even better cow. Her future is bright! She is halter broke and up to date on all vaccines.

Don't miss the opportunity on this exciting young heifer show prospect. This heifer has all the depth of body and spring of rib you need with being structurally sound from the ground up. This heifer's dam was named Grand Champion at the MAJAC Show and Beef Expo. This heifer has the genetics and the look to bring home some banners.

Here's an opportunity to buy a heifer with a world of potential next summer and fall. This one is a bit younger and greener now, but does anyone really remember who won last year's winter jackpot shows? This one is set to be ultra-competitive at the shows that matter next summer and fall. Royally bred and out of a \$10k Steel Force cow that came from Guyer and Gray that we sold to TbarS Simmentals. They did a great job raising this one and we are ultra-excited to be able to help them get this one to a great home. This one was green when we took the picture of her but we promise she will be right for the times at VCCP sale day. If you want to run next summer, keep your hand up and bid with confidence.

Style has been siring winners and high sellers across the nation. This young heifer is maternal in her build, long spined, big bodied and moves like a cat. She has all of these attributes while maintaining a show ring presence. Not only does she have the look for the show ring but she also has purple running in her veins. Her mother (Bella) was a many time champion for the Aegerter family of Nebraska. That includes 5 banners from the National Western Stock Show. In her first embryo crop last year we had two maternal sibs by First N Goal that were both high sellers and multiple time winners for the Lehman and Niese families From Ohio. This spring was our first group of Styles out of her and they blew us away with their quality and consistency. Two sold in our fall sale with one bringing \$15000 and another selling for \$7000. With the consistency in this pedigree she should pay big dividends for generations to come.

This heifer's dam, Red Robin, was the high selling bred heifer in the 2015 VCCP Eastern Elite sale to Wy Cattle at \$11,500. Her valuation went up when Yonts farm recently purchased her for \$18,000. Red Robin has produced many winners and flushes great, with an average of 19 good eggs. To date, the dam of this heifer's mother has grossed over \$40,000 and counting. We believe this heifer has the same potential as her mother; don't miss out on this one.

Scenic's sire -- R B Tour of Duty 177 -- needs no introduction since he was #1 for Angus registrations in 2017. This Simmental/Angus heifer has amazing EPDs -- from Top 25% for calving ease to Top 15% for yearling weight, Top 4% for milk, and four of her six carcass EPDs are Top 20% and above. Cap that off with an API of 138!!! Although many may prefer her near perfect EPDs over great phenotype, what we love about this heifer is her style and presence. From her super clean front to her smooth shoulder and deep rib, she is the complete pack. PVSM Scenic Tour will be fun to show and then turn out in the front pasture for a long, productive life. Free of all known genetic defects.

With lots of successful clubby matings under her belt, including numerous steer and heifer champions and the promotional AI sire Harlem Shake, we decided to try Roxy to something maternal. She didn't disappoint! This red blaze faced bull is stout made, yet soft and balanced in his design. Study the flexibility in his pasterns and movement off both ends. He is sure to sire calves with this same soundness and style.

Her sire is the popular blaze faced No Worries bull, and now she is bred to the NAILE Champion Simmental bull, Blaze of Glory; who is also a Blaze. Everybody knows the value of a blaze faced calf. Especially one that will be able to be registered with the Simmental Association, like this calf will be. Here is the first of two Baldy ET sisters that are destined to make great cows. The dam of these cows was a donor for us for several years and did a nice job for us. A few years ago, we started calving some of our maternal matings out in the fall to give the heifers more time to mature before breeding – this adds value and will help heifers breed back. This one is bred to Mercedes Benz, a sire that has produced a lot of high dollar cattle over the years – The color pattern of this calf should be cool. Both of these Heifers can be registered as % simmental.

There might not be another heifer out there with the genetics to raise steers like this one. Moderate framed, bold ribbed, and as powerful as you can make one while still being perfect on her feet and legs. She is built to make the "chubby" steers that sell high and sell fast. One of her best attributes is she is a complete outcross to many sires in the industry so the mating opportunities are unlimited!

Everyone in this neck of the woods has seen what her dam has done for Mill Creek over the years. 33 was Roxi's natural calf in 2011, before the high sellers, champions and AI sire, Harlem Shake hit the ground. This cow has produced well for us. She has been flushed twice and produced 8 eggs both flushes. We sold 3 eggs in a previous Eastern Elite sale and sold a \$3,000 Unstoppable steer as Lot#1 in the 2015 Best of Valley Sale. With eggs in the tank, we have decided to sell 33 bred to calve before sale day to the Jake Proud Jazz son, we had to display last year in the Eastern Elite barn, So Fresh N So Clean. This cow is more right for the times than she was 5 years ago. The bone, belly and butt this cow passes on is unmatched. These calves will sell quick and go onto win. Consistency is one of this cow's best qualities as every calf I have ever had out of 928B sold for a premium. These two matings may be her best ever.

FABER'S CHANTEL (HEATWAVE)

102X was a sale feature in the 2016 Western Elite Sale in Denver. She is a TH free direct daughter of Faber's Chantel 739T and is also a flush mate to the popular AI sire No Limits and 3/4 sib to another AI sire, Moonshine. Another maternal sib to 102X is the \$96,000 Interstate sired heifer bought by GOET & Green Oaks Farm a few years ago. This donor female doesn't just look good on paper, she can produce too. Her steers have been shown in Wyoming and Iowa with one of them being named Champion Charolais Steer at the Iowa Beef Expo. Her Business Done Right steer calves were high sellers at the 2017 VCCP Best of the Valley Club Calf Sale. Dig in on these great eggs!

FULL SIB "CHECK MATE"

FULL SIB OWNED BY THE KIPP FAMILY

Lot A will be full sibs to the promotional sire "Check Mate", a bull that we raised and sold to Phil and Matt Lautner, he was super successful for Woolf's in Iowa, he liked him so much he actually leased him for three spring breeding seasons in a row, we have also raised some really awesome cattle out of him too, that bull is really under used, B.C. and I actually bought all of the semen that MLC had in inventory, the red heifer is a full sibling to him and was many time champion for the Kipp family in Iowa, her success included being Res. Champion in her division at the Iowa Beef Expo.

Lot B mating will result in maternal sibs to Check Mate and the red heifer owned by the Kipp Family of Iowa. We have only had just a couple of the MABs out of the 66 donor but they have all been really cool.

This cow hit us hard the first time we saw her, so we had to buy her, and her daughter. With colored cattle as hot as they are right now we thought she was one that could make a big impact, and she has done just that in just a short time. We sold a fall born no surprise last year for \$10,000 and an \$18,000 Heat Wave. This blonde beauty is working her way towards the top of our favorites list.

6/51 was our pick of the Griswold dispersal a couple years ago. She is the epitome of what a female should look like to us. Long and attractive in her front one third, huge middle, stout yet still very feminine in her muscle design, good legged and sure footed. This is the kind of cow you build a whole herd around and we sure plan on doing just that. These Monopolys should be able to work either way, steer or heifers.
