WAGNER SALE FACILITY

HERSHEY, PA

Welcome,

It is with tremendous enthusiasm that we welcome you to the 2026 Stars & Stripes Sale. Haefner Marketing is honored to partner once again in hosting this exceptional event, and we look forward to seeing you in person at the Wagner Sale Facility in Hershey, PA. This region is not only rich in our Nation's history, but also deeply rooted in the heritage and progress of the Simmental breed.

If you're unable to join us on site, we invite you to participate through CCI.Live, where you can evaluate, watch, and bid on this outstanding offering. Videos will be available on CCI approximately one week prior to sale day and will also be linked in the online ISSUU catalog and on the Haefner Marketing Facebook page. Please feel free to reach out to me or any of the consignors directly with questions about the cattle.

This distinguished group of breeders has once again brought forward the very best of their programs for your consideration on Saturday May 2nd, 2026. Within these pages, you'll find elite show prospects, future donors, and some of the most predictable, profitable genetics available in the Simmental breed today. With national cattle numbers still tight and the market continuing to strengthen, there has never been a better time to invest in high quality breeding stock from reputable, proven producers. You can be confident that the consignors represented here stand behind their cattle with integrity and unwavering commitment.

Mark your calendars and begin planning for an exceptional weekend of cattle evaluation, breeder connection, and time spent in one of the most beautiful areas of the country. As always, sale management and consignors are here to support you—whether you need additional information, assistance, or guidance as you review the offering.

We look forward to welcoming you to Hershey on May 2nd!

Opportunities like this are few and far between in the Simmental breed. The prospect to buy a turn key, proven donor and revenue generator like Gizelle is a chance of a lifetime to write your chapter in the storybook of this matriarch female in our exciting industry. We have been honored and humbled by the long list of contributions this young donor has brought to our programs. This was not an easy decision or one that we take lightly, as it is difficult to sell such a prominent donor still in the prime of her life. Gizelle is one of those special females that has the look and prowess, as well as a pedigree that is easily recognizable. A maternal sister to Gizelle commanded \$100K as the lead off lot at the Cardinal Cattle "The Program" sale. She is also a full sister to the ever popular DMCC Counter Attack - and sired by Secret Weapon, who arguably is the best Simmental sire for putting elite, high-dollar, females into the donor pen. Gizelle not only combines incredible phenotype and pedigree, she is a red-gene carrier and the baldy trait runs strong. Gizelle herself was a multi-time champion for Anna Sweat and the Sweat family in Arkansas. Gizelle's calves are consistently good looking, stout, hairy, and come with plenty of extension and growth while not sacrificing body shape. Gizelle has been an exceptional embryo producer during her lifetime. She has averaged 26.1 oocytes per flush and has averaged 13.1 frozen embryos in her lifetime (11.5 Grade 1's). The majority of the embryos produced were reverse sorted. We think her ability to produce large numbers of embryos will be a major asset for her new owner - being able to utilize her versatility in production. This great donor will continue to have her place in the Simmental breed, but we think she could easily become one of the next best donors in the club calf industry or any other facet of the show cattle industry you desire. This is an opportunity you will not want to miss. Selling 100% possession and embryo interest. Donor is open and ready to flush. Offered by Full Circle Farms and ERV Cattle.

Every year, we strive to offer a selection from our progressive genetic embryo transfer program, and this year is no different. From the heart of our herd, we've selected an incredible future show heifer prospect. STCC Tecumseh 058J needs no introduction, the 620,000 dollar phoneme has generated countless champions from coast to coast, so mating him to our DMCC Gizelle 81G donor that we own with Full Circle Farms was a no brainer. With Gizelle selling here at the 2026 Stars and Stripes sale, we felt that it just made sense to roll out an incredible young daughter of hers to sell as our ET pair. This star headed baby sure is impressive, even in her young age. At the ground, her huge feet and stout bone sets the stage for her quality show heifer proportions. She reads extend up front, three-dimensional in her body, and ultra flexible in her running gear. We are confident that her ceiling of quality is very high, and look forward to seeing her continued success! Recip is a docile, great uddered, 5 year old Angus that sells open and ready for your next elite mating

Miss Payroll is a beautiful red baldy with all the bells and whistles. This two year old packs some punch being sired by Pay Roll and stemming back to the great Burn Right T26 who has a long list of progeny that have worked for numerous programs. With this type of pedigree and look this girl could take a program to a whole new level. If that's not enough to get your blood pumping take a look at the little red baldy princess at her side. She has the look of a show stopper in the making. Be sure to look up this young pair on sale day.

This 2-year old 20-20 is going to make an excellent cow for your herd with her extended front end and extra sound feet and legs. She has a beautiful teat and udder design, coming from a cow family that is been in the herd for 25 years. We breed for easy keeping, fertile, structurally correct, eye appealing, big volumed cows that survive and thrive on hay in the winter, grass in the summer – no supplements except excellent free choice mineral. The bonus is the striking bull calf on her side. Blaze faced, top quality bull prospect. He was the “pick” of our bull calves by numerous visitors, hopefully they will take advantage of getting a cow/calf combo out of this sale. Simme Valley's herd is BVD-PI negative, enrolled in the THE program, and the farm is Certified BQA. Will be breeding Mischeif to TL On The Run.

In the search for more muscle and power, "Clara" can rescue your herd from becoming small and slender. This Clara Barton offers relief from shorter framed, narrow made cattle. Clara hails from the "Natty" line – known for superior fertility, easy-going attitudes, sturdy hooves, flexible strides, powerful hindquarters, and huge, efficient mid-sections. Wanting to re-create a "Red Cross", Clara was AI'd once to the Red Angus bull, Malbec. The result is a wide based powerhouse of a heifer! No need to cross battle lines here, just secure this kind-hearted, halter-broke pair with your bids!

Beauty Touch, affectionately know as Bobbi around the farm is a female that we have been anxiously awaiting to bring for your evaluation. Over the years we have sold a lot of top pairs here at the Stars and Stripes and we feel that Bobbi with fit in right with the best of them. Bobbi is a direct daughter of our great Miss Built Right U553 "aka Beauty" donor who was one of the best cows to ever walk our pastures. With the passing of Beauty last winter there will not likely be many more opportunities to own one of her direct daughters. I could try and describe her but wouldn't do her justice. She has been a beautiful female to watch develop from day one. Right at two years old she layed down and had a beautiful baldy heifer calf, and moved to the next level. Bobbi has one of the most perfect udders you could ever design adding to her already beautiful phenotype. With that all being said Grady would like the opportunity of show Bobbi and her heifer calf at the 2026 Eastern Regional Simmental show in Lebanon, IN, if the new owner would allow him. Seller reserves the right to one successful flush with a minimum of 6 transferable embryos at the sellers expense and the buyers convenience. We look forward to working with you to help promote this great young female.

Justa Bettin is a Just Cuz Daughter out of the \$30k Triple J Bet on Red Donor they refer to as "Voodoo" from our good friends at Tops Off Cattle Company. She was purchased through the 2024 Jared Werning Production Sale. Voodoo is in the early stages of her very promising production career. Daughters, including Justa Bettin carry several maternal characteristics; wide hiped, bold ribbed and the ability to float around a pen insuring that longevity has already been bred into this female. This past year Just Cuz daughters have been hitting sale rings across the country and demanding premiums when the gavel hits. This pair is no exception. Justa Bettin comes to you sale day with a red blaze face bull calf that has already done the work for you in your quest for next year's herd bull. You can place your money on Black or Red here and it won't be gambling. It's Justa Bettin.

JAG is a LAZY H Shez Too Cool W58 x W/C Bankroll 811D we purchased as an embryo out of this sale from Greg Stewart with a power house Redstone bull calf at her side. It is no secret how great these LAZY H Shez Too Cool W58 daughters are from Stewarts Simmental there's been a number of them that have been high sellers even here at this very sale. JAG is very clean front ended on a perfect frame with loads of bone and a nice long square hip. POPEYE is a stout and correct bull with tons of eye appeal. BVD-PI negative.

Here is a cow right in the prime of her life. She combines a lot of good things into one package. She has a good looking phenotype to go along with a phenomenal pedigree and her EPD's are just icing on the cake. Her dam is a full sib to the Great SSC Shell Shocked 44B and SSC Victoria's Secret. Legend comes to you with a stout little heifer calf at her side that alot of people are going to like come sale day, sired GEFF County O. Here is a cow that is going to produce for you for many years to come. Don't miss out and don't forget about that beautiful heifer calf at her side. Could likely be a 3 in 1 come sale day.

A long time favorite in our herd, Kahlua was bred by Simme Valley and we purchased her dam at the 2018 S&S sale. There is a reason EO daughters are so popular, they do everything right! She's balanced in her design, great feet and udder, and her calves have sold well. The sharp baldie heifer by LCDR Anthem on her side will command top dollar. Study their pedigrees, EPDs, and videos and bid with confidence! Halter broke. DNA Tested.

Pride is the kind of cow that make raising cattle a lot of fun. Square made, stands on great feet, and has a perfect udder. This direct daughter of the female making Una Mas has given us great calves every year. Take a look at the fancy Shell Shocked fall heifer and you will see why we're so high on her. This beaut is coming along great and would make someone a great show heifer and most importantly, a breeding piece to build a herd around. Pride is bred back to Next Level for a fall calf and I think this could be her best mating yet.

If you are looking for a donor quality female, be sure to check out Angel Wings. This dark cherry red female is sired by the now deceased Bet On Red, out of our Red Angel donor. Red Angel is a daughter of the \$37,000 SSC Victorias Secret 49B, and a flushmate to the A.I. sire PVSM Victorious. In addition to an unbeatable pedigree, Angel has muscle, thickness, and dimension while still being feminine. All of these traits, plus soundness and a great disposition combine to create a very complete heifer. There is also a ton of consistency in this mating, with Angel's flushmate sister being the high selling Fall Open Heifer at last year's Stars and Stripes Sale, going to Adam Dressler. Angel is bred to one of the hottest new bulls in the breed right now-- TL On The Run 106K—and we are excited to see that calf!

Mimzy's perfect blaze face compliments her look of power and strong maternal value – being matched with her structural correctness and great bone. Phenotypically, she hits us with huge brood cow potential, with winning looks for the showing, already winning at numerous shows. Mimzy goes back to B&B Miss Power Lass, added to Simme Valley's herd in 2004. Power Lass was flushed in coop with Hudson Pines Farm. Half (or more) of our herd is the #3 cow family. This speaks volume of these TANKS we have walking the fields – thriving on hay in the winter and grass in the summer. This heifer is pictured and videoed in her natural hair coat, blown & clipped. Simme Valley's herd is BVD-PI negative, enrolled in the THE program, and the farm is Certified BQA.

The name says it all... this is one bad heifer. She has been a stand out since birth and with good right and if it wasn't for having more eggs in the tank she wouldn't be going anywhere. The mating of Broker and Foxy Lady is one of the most sought after pedigrees offered. Beth spent fall on fescue and hay on our winter range. I brought her in to clean her up only to find she is probably the calmest Broker heifer that i have ever been around. She let me clip her head without a halter and stood in the wash rack and clipping chute without a worry in the world. This is truly an oddity in the Broker world. Beth is a very feminine package, clean fronted with soft shoulders. She posses the genetic potential to add style and class to your herd and with out a doubt will wind up in someones donor pen. Beth is bred to the hot new Griswald Bull Night Owl for a Christmas 2026 calf. Bid with confidence that this heifer will be the talk of your front pasture.

The Red Jewel progeny have topped sales and gone on to be great producers. She is one of the premier red hided cows in the business who is largely responsible for the "red wave" in the industry. We bought a package of embryos in which this bred heifer is derived from and have decided to offer some of the most sought-after Red Jewel Genetics in the business. We feel this heifer has a lot of potential to offer phenotypically and genotypically. Her genetics backing speaks for itself in the Simmental industry, as Red Jewel daughters are still well sought after and selling high. HM28 is soft made, sound, smooth shouldered and beautiful in the length of body she offers. Expect this one to create value in your seedstock program and produce well into the future.

Call me crazy for bringing this one to town, trust me, I feel it myself. But it is our commitment to bringing quality to this sale that lands her in our offering group. We bought this female from our friends at Hillcrest Farms, and she's been an incredible asset to our program, landing females in our annual fall online sale. There's no question that the EKHCC Red Jewel 760 donor has been a matriarch of the Simmental breed for years now, generating winners, elite sires, and incredible donors from coast to coast. Keepsake's undeniable structural quality, and elegant, feminine design position her as an incredible breeding piece, and at just 4 years old, there's no doubt she's just hitting the prime of her life and is ready to work! Bred to one of the breed's most talked about sires, TL On the Run, we are confident that this mating will be high quality, regardless of calf sex. If her offspring come equipped with that big ring look and presence, there is no doubt they'll have value at all stages of life. Bid with confidence in a proven producer!

Several items come to mind when describing Kayla 56CK. Point 1 - She is sound from the ground upward with all the right angles to her skeleton. Point 2 - She has an abundance of quality in terms of her head, hair, hide, and bone structure. She is also excellent in her hip structure and tailhead setting. Point 3 - Kayla's pedigree should raise some eyebrows. Her sire has proven time and time again the quality and consistency of his progeny; as has Kayla. She traces back to the great WAR DIVA cow whose influence has been a major factor in our herd for over 20 years. Point 4 - Legacy and longevity are major factors in this strong 3 year old. Her maternal granddam turns 17 this spring and remains productive and sound. Kayla sells pregnant to PHFC United We Stand, the high selling son of Patriot 8K, due 9/11/26. BVD-PI negative, OCV.

When it comes to the basics of seedstock selection criteria Harmony F2H has all the bases covered. 1) Pedigree: Her dam is the lead donor Dandi 6D and sired by the previous Denver Champion Innovator. 2) Structure: Appropriate angles on both of her skeleton starting from the ground up. 3) Volume and Capacity: Among the most bold sprung, big middled cows at CLO, a very low maintenance individual. Very well balanced and very feminine fronted. Harmony F2H has some added stature and performance which she passes to her progeny. She produced one of the higher selling 2 year old pairs in the 2025 S&S sale going to Hadley Vangilder of PA. The average birth wt. of her 4 calves to date has been a moderate 77 lbs and then they perform efficiently. Always be mindful that Harmony is a direct descendant of the 'Sheza Dandy' cow family that is the backbone of our herd. She sells carrying the service of PHFC United We Stand, son of Patriot 8K, due 9/5/2026. BVD-PI Negative, OCV.

N04 and N05 – HPF K-O E037 has been a consistent producer for our breeding program for several years. Now at 9 years old she still doesn't miss a beat. She really clicked when mating her to the Cattlemen 's Congress supreme champion TJSC Coping With Destiny. Don't let the fact that they're twins deter you. These two heifers have all the traits and qualities to make great females for their new owners. BPF Knockout N05 is the more moderate Burley, deep body female study her lines and you'll be impressed with how she ties her complete body together from the tip of her nose to the end of her tail. BPF Knockout N04 is the little bit larger framed, longer hipped female, but still carries the same smoothness and quality of her more moderate sister. Whether you choose to show them or take them home and add them to your breeding program they should be a great addition to your herd. They both sell halter broke.

Red headed beauty, with that sought after blaze face. Truly an exquisite female in every way. Extremely sound with perfect lines and the look of a show prospect. She has a beautiful extended clean front end. Out of a 10-year old, Amigo sired dam. We are not a "numbers" farm, but I find the new "CER" EPD is a reflection on what we breed for, "Cow Energy Requirement". The lower the number, the less energy needed for maintenance, lactation and gestation. This heifer is in the TOP 10% for our breed. Neon is a friendly sweetheart, already started on halter. Ready for your kid to bond and train her for a show. Neon will be bred to WS Red Moon. This heifer is pictured and videoed in her natural hair coat, blown & clipped – no adhesives. Simme Valley's herd is BVD-PI negative, enrolled in the THE program, and the farm is Certified BQA.

A 2026 PA Farm Show class winner, this Simsolution heifer is ready for the show ring. She's an embryo calf out of Ryan Haefner's favorite HPF cow, HPF Sazerac 238b. Tremendous rib shape, big hipped and athletic on the move. The mating to Anthem should add some white and continue to improve the EPD profile. Fully halter broke and friendly.

What do you say about perfection? Length and power are the first things that come to mind. Big bodied, easy keeping, potentially high productivity kind that leaves little to the imagination of her capabilities and beauty. This heifer represents the mold, we at Simme Valley is striving to achieve with every breeding. Nutrisse is super sweet (out of a County O dam that is the "in your pocket" kind looking for lovings) and has been started on halter. She will be extremely competitive in the showing – but most importantly, will make a herd building COW. This heifer will be bred to TL On the Run. This heifer is pictured and videoed in her natural hair coat, blown & clipped – no adhesives. Simme Valley's herd is BVD-PI negative, enrolled in the THE program, and the farm is Certified BQA.

Pedigree and Quality are bound together in one impressive phenotypic package. It would be challenging to write a more current time tested proven tabulation. Volumes could be written about all the relatives to Nyla K2N in her 4 generation pedigree. When you start to examine her in person you will find a feminine, moderate framed, sound structured heifer that will continue her upward trend. She is extremely long fronted, great topped with the structure to support it. This female has been developed for the long haul, never pushed and has been proven to be feed efficient and great haired. Nyla presents a really good profile with plenty depth of body and sound movement. She has all the angularity you could hope for. Viewing her from the rear she impresses with her base width and width of top with adequate width of hips and pins. This female should project into a 'front pasture cow'. Bank on her future, buy with confidence. Will be bred to 'Point Proven' for calving ease and quality. BVD-PI Negative, OCV.

This one comes straight off from our show string and believe me I have an upset junior that's pretty hot about selling her. If there is any saving grace she will be showing her until sale day! Do you get as excited as I do about Hudson Pines genetics? Her maternal grand dam is non other than HPF Daisy Mae A008 arguably one of the most impressive cows produced at Hudson Pines. Her dam is a Relentless/HPF Daisy Mae that only accentuates the genetics and combine that with her sire the great Rocking P Private Stock and you have a stacked genetic package thats almost impossible to duplicate. Lize Mae is a beast of a heifer following her grand dams legendary size when cows had larger feet and bigger bodies with higher frame scores. She is big middled with a wide flat back. Packaged with bone and muscle that exemplify her thickness and power yet complement her femininity. She is clean fronted with a deep belly and correct legs and feet. Add this one to your show string until its time to put her in the donor pen and start adding to the genetic potential this heifer will bring to your herd.

Mary's Melody will have you humming a tune from the show ring backdrop to the front pasture donor pen. Show broke and Junior friendly, Melody demands your attention in the pen and on paper. When you look through her pedigree it won't be a surprise why, Sired by the record setting \$530K bull So Remedy 7F whose daughters' average north of \$10k it's easy to see why. Melody is a daughter out of a donor from our good friends at Tops Off Cattle Company, known as "Hail Mary". Mary is sired by the keystone of the Simmental breed W/C Bankroll 811d and was the \$44k High selling SimAngus in the 2023 Werning Production sale. Mary's first calf crop has exceeded expectations, and Melody is bound to follow suit. Long spined, level topped and the cleanest front you may ever see. This heifer is a spitting image of her dam and you can be assured this isn't a Parody its Mary's Melody.

Hey there Sexy Red! Not only does this donor prospect possess a pedigree to die for, but she's got the extras it takes to make a lasting impact in both the ring and the donor pen. She's royally bred, pairing the elite female maker, SAM with our cornerstone donor female in JPLF Miss Matlock C502, who we lost far too soon. Miss Matlock was Supreme Female at Simmental Sweepstakes, Grand Champion at KILE, and Reserve Supreme at PA Farm Show. Not only was her show career successful, she also produced a \$100K Distinction daughter sold to Sullivans at the Donors and Divas Sale. This heifer picks up right where her momma left off. Her neck set and elevation aid to her big ring presence, while her stout, flexible skeleton allows her to be ultra comfortable as she stirs the pen. When livestock that are as exotic looking as her can pair that look with real dimension, and the kind of skeleton it takes to last in production, there's no question that she will be a generator. We are confident in this one's future and are retaining half interest in her, knowing how far she can help move the needle for an operation. She also comes with quick ROI, as she is carrying a GCC Night Owl 3104L baby! Females that are this versatile rarely come up for sale, so be sure to jump on this investment opportunity in a future moneymaker!!! Selling Half Interest with Negotiable Possession

A work of art is collectible. Some are timeless and valuable. Through our eyes, this work of art is a classic beauty. Genetically, "Mia" is designed with an adequate set of EPDs. In addition, she goes back to the rare and expensive Red Answer, the prized Alley 247Y, and the highly regarded Stepping Stone. Phenotypically, Mia is sound and heavy boned, with extra shape and dimension, yet is still so feminine and pretty as a picture. Her canvas is hetero black, so future breeding decisions could result in some trendy reds! With her pleasant attitude, this halter-broke gem could be fun to show. Send "Mia" picture when you're at the backdrop!

What a great opportunity here to get in on the ground floor of last years high seller and record setting female here at the Stars and Stripes. Serenade, with her massive build, beautiful front 1/3 and tremendous udder, drew a lot of attention from far and wide. In addition to her impressive phenotype is her unmatched pedigree being a flushmate to the dominate STCC Tecumseh who sold half interest for \$620,000. When the hammer fell on Serenade she set a new sale record at 40k selling to Sloup Simmentals in NE to add to their dominate donor battery. Here is your opportunity to get in on this genetic gem right off the bat. You have the opportunity to buy a heifer calf pregnancy sired by ultra consistent SO Remedy. Recip is a 6 year old purebred commerical black baldy cow. Or you can get in on Serenade through embryos out of some of the hottest sires in the breed. Either way I am confident that these genetics are going to make you money for many years down the road.

Watermelon Sugar is a maternal sister to the great Versache and has started to make waves herself for Hilbrands and Sloup. We couldn't wait to get her flushed to SAM and after seeing the full sibs on the ground at Hilbrands the guess work is all done. Be sure to take advantage of this great opportunity. Selling 3 IUF RSF guaranteeing one 60 day pregnancy if done by a certified embryologist.

Bailey was Supreme Champion Female at the 2018 Junior Nationals as well as a 6 figure sale highlight at the Hartman Customer Appreciation Sale. We could have never imagined the possibility of bringing a donor of this much proven success, prowess, and quality to our program. Our friends at Full Circle Farms and us believe the true potential of this incredible donor is still untapped. After her incredible show career, "Bailey" has gotten it done in the donor pen for Sullivan's with multiple sale toppers including \$90,000 and \$72,000. Daughters sired by SAM and Reckoning have commanded \$35,000 and \$25,000. Bailey is a unique combination of mass and elegance, with the foot size, length of spine, and extension that is hard to find. Bailey is designed for the show ring with longevity needed to make it to the pasture. There may not be a sire as diverse at Something About Mary and as we have seen in Bailey's existing progeny, this mating is the one to have. Don't miss this rare opportunity. **consignor:** Hillcrest Farm

Foxy is now owned by Bob Rockers in Kansas. Foxy calves have been highlighting sales with multiple high sellers in the six digits. Expect these matings to produce calves that are stout, huge boned, extended, with that look and hair that the show industry is demanding. Foxy Lady was named Breed Champion over 15 times in 7 different states. Her calf crop is always some of our best, highlighted by a \$15K Broker daughter, \$12K SAM daughter, \$12 BOE Garth daughter, an 11K Remedy daughter, and \$11K County O daughter, and a \$10K BOE Epic Daughter- and we expect this average to rise. This mating combines some of the most proven and successful genetics the Simmental breed has to offer not only in the show cattle industry, but the seedstock programs across the country. There is going to be quite a buzz when these hit the ground and expect them to be getting a lot of attention. Both matings will register 3/4 Simmental.

Not much to say here other than "proof is in the pudding". Be sure to check out SSC Beauty Touch 323M, full sib to these embryos. MF Miss Built Right U553 "Beauty" has done so much for our program that I feel I could write a book about her. Chapters could be written about all the winnings she did in the show ring, both on her own and as a dominant cow/calf pair. Other chapters could be written about her numerous offspring that have been Champions. Then to follow that up with chapters about all of her offspring that have topped sales for years by numerous different sires. With the loss of Beauty last winter this will likely be your last opportunity to buy embryos out of her. But one thing is for sure, you can count on writing your own chapter with the heifers calves you get out of these embryos.
